TECHNICAL INFORMATION ◀

QUALIDADE, TRADIÇÃO E INOVAÇÃO DESDE 1981

A Gresart Cerâmica utiliza os mais avançados sistemas de produção orientados para a eficiência industrial, a sustentabilidade ambiental, a responsabilidade social e a qualidade técnica e estética do produto há mais de 40 anos. Fundada em julho de 1981, a empresa exporta regularmente para mais de 60 países em todo o mundo.

QUALITY, TRADITION & INNOVATION SINCE 1981

Gresart Cerâmica uses the most advanced production systems oriented towards industrial efficiency, environmental sustainability, social responsibility and technical and aesthetical product quality for over 40 years. Founded in July 1981, the company regularly exports to over 60 countries worldwide.

QUALITÉ, TRADITION ET INNOVATION DEPUIS 1981

Depuis plus de 40 ans, Gresart Cerâmica utilise les systèmes de production les plus avancés, orientés vers l'efficacité industrielle, la durabilité environnementale, la responsabilité sociale et la qualité technique et esthétique du produit. Fondée en juillet 1981, l'entreprise exporte régulièrement dans plus de 60 pays dans le monde entier.

QUALITÄT, TRADITION UND INNOVATION SEIT 1981

Gresart Cerâmica setzt seit über 40 Jahren die modernsten Produktionssysteme ein, die auf industrielle Effizienz, Umweltverträglichkeit, soziale Verantwortung und technische und ästhetische Qualität des Produkts ausgerichtet sind. Das Unternehmen wurde im Juli 1981 gegründet und exportiert regelmäßig in mehr als 60 Länder weltweit.

TO BE GREEN

COMPROMISSO COM O AMBIENTE

ENVIRONMENT COMMITMENT _ ENVIRONMENT COMMITMENT _ ENGAGEMENT FÜR DEN UMWELTSCHUTZ

REDUZIR

- Redução da poluição pela produção de 1,9 Gigawatts de energia elétrica limpa para autoconsumo através de painéis solares. Otimização do consumo energético no processo produtivo.
- Redução da poluição através do uso de 99% de fornecedores locais de matérias-primas e elementos necessários à produção e comercialização dos produtos.
- Redução das emissões de gases (observância integral do Protocolo de Kyoto).

REUTILIZAR

- 100% Reciclagem de águas.
- 100% Reutilização do resíduo bruto gerado.

RECICLAR

- 100% Utilização de materiais de embalagem recicláveis.
- 100% Utilização de paletes tratadas de acordo com as normas internacionais de proteção da flora e fauna.

REDUCE

- Reduction of pollution by producing 1,9 Gigawatt of clean electricity for self-consumption using solar panels. Optimization of consumption in the production process.
- Pollution reduction through the use of 99% local suppliers of raw materials and other elements necessary for the production and marketing of products.
- Reduction of gas emissions (full compliance with Kyoto Protocol).

REUSE

- 100% water recycling.
- 100% reuse of raw waste generated residue production generated.

RECYCLE

- 100% use of recyclable packaging materials.
- 100% use of treated pallets in accordance with international flora and fauna protection standards.

RÉDUIRE

- Réduction de la pollution par la production de 1,9 gigawatts d'énergie électrique propre pour l'autoconsommation par l'intermédiaire de panneaux solaires. Optimisation de la consommation d'énergie dans le processus de production.
- Réduction de la pollution par l'utilisation de 99% de fournisseurs locaux de matières premières et d'éléments nécessaires à la production et à la commercialisation des produits.
- Réduction des émissions de gaz (respect intégral du protocole de Kyoto).

RÉUTILISER

- 100% Recyclage de l'eau.
- 100% Réutilisation des déchets bruts générés.

RECYCLER

- 100% Utilisation de matériaux d'emballage recyclables.
- 100% Utilisation de palettes traitées conformément aux normes internationales de protection de la flore et de la faune.

REDUZIEREN

- Verringerung der Umweltverschmutzung durch die Erzeugung von 1,9 Gigawatt sauberen Strom für den Eigenverbrauch mit Hilfe von Sonnenkollektoren. Optimierung des Energieverbrauchs im Produktionsprozess.
- Verringerung der Umweltverschmutzung durch die Verwendung von 99% lokaler Lieferanten von Rohstoffen und Elementen, die für die Herstellung und Vermarktung von Produkten erforderlich sind.
- Verringerung der Gasemissionen (vollständige Einhaltung des Kyoto-Protokolls)

WIEDERVERWENDEN

- 100% Wasserrecycling.
- 100% Wiederverwendung der erzeugten Rohabfälle.

RECYCELN

- 100% Verwendung recycelbarer Verpackungsmaterialien.
- 100% Verwendung von Paletten, die gemäß den internationalen Normen zum Schutz von Flora und Fauna behandelt wurden.

1981

Constituição de duas empresas: a GRESART e a AZUGRÉS, a primeira vocacionada para a produção de pavimentos e segunda para revestimentos.

Establishment of the two companies: GRESART and AZUGRÉS, the first devoted to the production of floor tiles and the second dedicated to wall tiles.

Constitution de deux sociétés : GRESART et AZUGRÉS, la première se consacrant à la production de revêtements de sol et la seconde de revêtements de murs.

Gründung von zwei Unternehmen: GRESART und AZUGRÉS, wobei sich das erste auf die Produktion von Bodenbelägen ausgerichtet war und das zweite auf die Herstellung von Wandbelägen.

1986

Renovação da sua equipa de gestão e a fusão das duas unidades da qual resultou a GRESART, SA na sua estrutura acionista, jurídica e produtiva do presente.

Renewal of the general management team and the merger of two units in GRESART, SA in its shareholder, productive and legal structure up to the present time.

Renouvellement de son équipe de gestion et fusion des deux unités, donnant naissance à GRESART, SA dans sa structure actionnariale, juridique et productive actuelle.

Erneuerung des Managementteams und Zusammenschluss der beiden Einheiten zur GRESART, SA mit ihrer heutigen Aktionärs-, Rechts- und Produktionsstruktur.

2005

Certificação do Sistema de Garantia da Qualidade no âmbito da norma NP EN ISO 9002/1995 e posteriormente a certificação para o normativo NP EN ISO 9001:2000, que tem sido objeto de renovação e revalidação anualmente.

Certification of Quality System within the NP EN ISO 9002/1995 certification and later to the standard NP EN ISO 9001:2000, which has been renewed and revalidated annually.

Certification du système d'assurance qualité selon la norme NP EN ISO 9002/1995, puis certification selon la norme NP EN ISO 9001:2000, qui a fait l'objet d'un renouvellement et d'une revalidation annuels.

Zertifizierung des Qualitätssicherungssystems nach der Norm NP EN ISO 9002/1995 und anschließend Zertifizierung nach der Norm NP EN ISO 9001:2000, die jährlich erneuert und revalidiert wurde.

2007

Nova unidade fabril com equipamento industrial de última geração resultando no aumento da capacidade produtiva e na oferta de produtos de grandes formatos em grés porcelânico vidrado com tecnologia digital.

New production facility using state of the art industrial equipment resulting in increased production capacity and the supply of large format glazed porcelain stoneware using digital technology.

Nouvelle usine dotée d'un équipement industriel de pointe, permettant d'augmenter la capacité de production et de fournir des produits de grand format en grés cérame émaillé avec la technologie numérique.

Neue Fabrikanlage mit modernster Industrieausrüstung, die eine Steigerung der Produktionskapazität und die Lieferung von großformatigen Produkten aus glasiertem Feinsteinzeug mit Digitaltechnik ermöglicht.

2019

Nova linha de retificação a seco com equipamento industrial de última geração de alta produtividade e baixo impacto ambiental sem necessidade de água, com baixo consumo energético.

New rectification line with state-of-the-art industrial equipment for high productivity and low environmental impact, with no need for water and low energy consumption.

Nouvelle ligne de broyage à sec dotée d'équipements industriels de pointe à productivité élevée et faible impact sur l'environnement, sans besoin d'eau et avec une faible consommation d'énergie.

Neue Trockenschleiflinie mit modernster Industrieausrüstung von hoher Produktivität und geringer Umweltbelastung ohne Wasserverbrauch, mit geringem Energieverbrauch.

2020

Instalação de painéis solares produzindo anualmente 2.765 MWh de energia limpa e renovável suprimindo a emissão anual de 1.300 toneladas de CO₂ (gases com efeito de estufa), equivalente a plantar 31.900 árvores por ano.

Solar panels installation producing 2,765 MWh of clean and renewable energy per year suppressing the annual emission of 1,300 tons of CO₂ (greenhouse gases), equivalent to the annual planting of 31,900 trees.

Installation de panneaux solaires produisant annuellement 2,765 MWh d'énergie propre et renouvelable, en supprimant l'émission annuelle de 1300 tonnes de CO₂ (gaz à effet de serre), ce qui équivaut à la plantation de 31900 arbres par an.

Installation von Sonnenkollektoren zur Erzeugung von 2765 MWh sauberer, erneuerbarer Energie pro Jahr, wodurch der jährliche Ausstoß von 1300 Tonnen CO₂ (Treibhausgasen) vermieden wird, was der Pflanzung von 31900 Bäumen pro Jahr entspricht.

2022

Novo showroom com mais de 500 m² de área que contou com a participação de várias marcas e designers de interiores de forma a expor as nossas coleções e dar uma melhor assistência aos nossos parceiros, clientes, arquitetos e designers.

New showroom with an area of more than 500 square meters, with participation of several brands and interior designers to display our collections and give better support to our partners, clients, architects and designers.

Nouvelle salle d'exposition avec plus de 500 m² de surface, avec la participation de plusieurs marques et architectes d'intérieur, afin d'exposer nos collections et d'offrir une meilleure assistance à nos partenaires, clients, architectes et designers.

Neuer Ausstellungsraum mit einer Fläche von mehr als 500 Quadratmetern, an dem verschiedene Marken und Innenarchitekten beteiligt wurden, um unsere Kollektionen auszustellen und unseren Partnern, Kunden, Architekten und Designern eine bessere Unterstützung zu bieten.

2023

A GRESART foi adquirida pela Gres Panaria Portugal e passou a integrar a multinacional italiana Panariagroup Industrie Ceramiche.

GRESART was acquired by Gres Panaria Portugal and became part of the Italian multinational Panariagroup Industrie Ceramiche.

GRESART a été rachetée par Gres Panaria Portugal et a rejoint la multinationale italienne Panariagroup Industrie Ceramiche.

GRESART wurde von Gres Panaria Portugal übernommen und wurde Teil der italienischen multinationalen Panariagroup Industrie Ceramiche.

Quando se trata de produtos com relevo nas suas peças (p.ex coleção DECK), a aplicação das peças na mesma direcção podem apresentar um ligeiro desalinhamento intrínseco ao produto. Recomenda-se a utilização de junta aproximadamente, 3 mm.

When applying pieces in the same direction, the slight deviation of the flat part and/or stripes (eg. DECK collection) is a characteristic intrinsic to the product. We recommend the use of joint of approximately 3mm.

Lors de la pose de carreaux structurés dans le même sens (par ex. la collection DECK), un léger décalage de l'alignement de la partie lisse et/ou rayures est une caractéristique intrinsèque du produit. Nous recommandons l'utilisation d'un joint d'environ 3mm.

Wenn es sich um Produkte mit Prägung handelt (z.B. DECK Kollektion), kann die Verlegung der Fliesen in die selbe Richtung eine eigene optische Verlagerung präsentieren. Hier wird eine Fuge von etwa 3mm empfohlen.

TECHNICAL ◀
INFORMATION

Antes de iniciar o assentamento do material cerâmico, deverá ter em consideração os seguintes aspetos:

- Verificar se o material cerâmico é indicado para utilizar no local selecionado de acordo com as suas especificações e características técnicas;
- Verificar se existe material suficiente para realizar a obra;
- Confirmar nas caixas se o produto é da mesma tonalidade/lote, escolha e calibre;
- Não se aceitam reclamações relativas a materiais já aplicados.

O bom desempenho do material cerâmico depende fortemente das condições de aplicação pelo que é de extrema importância garantir os seguintes pressupostos:

Before (beginning the) laying (of) ceramic material, you should take the following aspects into account:

- Check if the ceramic material is suitable for (use at) the selected site, according to its specifications and technical characteristics;
- Check whether there is enough material to conclude the work;
- Check the boxes to see/confirm in the boxes if the product is in the same shade, choice and caliber;
- Claims regarding these items cannot be accepted after tile setting.

The good performance of the ceramic material depends strongly on the conditions of application for which it is extremely important to ensure the following assumptions:

Avant de commencer la pose du matériau céramique, les aspects suivants devront être pris en considération:

- Vérifier si le matériau céramique est indiqué pour une utilisation dans le lieu choisi, conformément à ses spécifications et caractéristiques techniques;
- Vérifier s'il existe la quantité de matériau suffisante pour réaliser le chantier;
- Confirmer dans les boîtes si le produit est du même ton, de la même qualité, et du même calibre;
- Les réclamations relatives au matériel déjà posé ne pourront pas être acceptées.

La bonne performance du matériau céramique dépend fortement des conditions d'application. Il est donc extrêmement important de garantir les conditions préalables suivantes:

Vor dem Beginn der Verlegearbeiten sollten Sie folgende Punkte berücksichtigen:

- Bitte überprüfen Sie, ob die gewählte Fliese laut ihrer Oberflächenbeschaffenheit und ihren technischen Eigenschaften geeignet für das Einsatzgebiet ist;
- Bitte prüfen Sie nach, ob die Menge der gewählten Fliese ausreicht, um das geplante Bauprojekt fertig zu stellen;
- Bitte prüfen Sie, ob die Fliesen aus verschiedenen Kartons dieselbe Beschaffenheit, (Ton, Wahl und Kaliber) haben;
- Diesbezügliche Beanstandungen können nach der Verlegung nicht berücksichtigt werden.

Die Leistungsfähigkeit der Fliese hängt stark davon ab, wie die Fliesen verlegt werden. Daher ist es sehr wichtig, die folgenden Punkte zu beachten:

INFORMAÇÃO TÉCNICA

TECHNICAL INFORMATION _ INFORMATION TECHNIQUE _ TECHNISCHE INFORMATION

01

O SUPORTE

O suporte deve apresentar-se estável, limpo de resíduos, fendas e poeiras. Deverão ser respeitados os tempos de cura e estabilidade dos tratamentos a que possa ter sido sujeito.

Deve fazer-se a verificação da planaridade do mesmo, procedendo à regularização, se necessário com a ajuda de produtos adequados a esse fim.

Estes aspetos são vitais para pavimentos e revestimentos cerâmicos.

SUPPORT

The support must be stable, free of debris, dust and cracks. Curing times and stability of the treatments to which the support may have been subjected should be respected.

You should check its flatness and stabilize it, if necessary with the help of products suitable for the purpose.

These aspects are vital for wall and floor ceramic tiles.

LE SUPPORT

Le support doit être stable, exempt de résidus, fentes et poussières. Les temps de durcissement et de stabilité des traitements auxquels il doit être soumis devront être respectés.

La planéité du support doit être vérifiée et le nivellement doit être réalisé si cela est nécessaire, à l'aide de produits appropriés.

Ces aspects sont essentiels pour les revêtements de sol et muraux céramiques.

DER UNTERGRUND

Der Untergrund muss stabil, sauber, sowie frei von Rissen und Staub sein. Sollte der Untergrund vor dem Verlegen der Fliesen speziell behandelt werden müssen, so sollten Sie darauf achten, dass die Behandlung gut gelungen und abgeschlossen ist, bevor Sie die Fliesen verlegen.

Sie sollten den Untergrund inspizieren. Falls er nicht eben ist, muss er mit Hilfe von passenden Produkten grundiert werden.

Diese Vorsicht ist angebracht und eine unabdingbare Voraussetzung für das fachgerechte Verlegen von Boden- und Wandfliesen.

02

O MATERIAL

Para obter um melhor efeito visual do produto, aconselha-se a utilização, alternada, de peças cerâmicas retiradas de várias embalagens em simultâneo.

Caso o produto seja destonalizado ou tenha gráfica e tonalidade diferente, deverá ser aplicado de forma aleatória.

MATERIAL

For a better visual effect of the product, it is advisable to use alternating ceramic pieces taken from various packages simultaneously.

If the product has shade variations or has different graphics and shades, it should be applied randomly.

LE MATÉRIAU

Pour obtenir un meilleur effet visuel avec le produit, il est conseillé d'utiliser de forme alternée des pièces céramiques retirées simultanément de plusieurs emballages.

Si le produit est dénuancé ou a un aspect graphique différent et une tonalité différente, il devra être appliqué de forme aléatoire.

DAS MATERIAL

Damit Sie das beste Ergebnis erzielen, ist es ratsam, die Fliesen immer aus verschiedenen Paketen zu wählen und in regelmäßig abwechselnder Folge zu verlegen.

Falls das Produkt diverse Farbschattierung, einen unterschiedliche Farbton oder grafisches Design aufweist, müssen die Fliesen auf diese Weise verlegt werden.

TECHNICAL INFORMATION _ INFORMATION TECHNIQUE _ TECHNISCHE INFORMATION

INFORMAÇÃO TÉCNICA

03

JUNTAS DE ASSENTAMENTO

Tendo em vista uma perfeita aplicação das peças cerâmicas, deve usar-se obrigatoriamente juntas de assentamento. Estas cumprem importantes funções estéticas e técnicas, facilitando o alinhamento dos materiais, absorvendo eventuais deformações que se possam fazer sentir na estrutura – chão e parede – e impedindo, assim, a transmissão destas deformações às peças cerâmicas.

Aconselhamos a utilização de niveladores aquando da aplicação de material de grandes formatos.

Utilizar as juntas mínimas recomendadas de forma a garantir um bom aspeto estético das peças cerâmicas, bem como respeitar as normas de aplicação.

NOTA: independentemente dos valores aqui apresentados, o aplicador deverá sempre seguir as normativas dos países onde está a fazer este trabalho de aplicação.

JOINTS FOR TILE-LAYING

For a perfect application of the ceramic pieces, you should definitely use joints. They fulfill important aesthetic and technical functions, facilitating alignment of the materials, absorbing any possible deformation liable to be felt in the structure - floor and wall - thus preventing the transmission of deformations to the ceramic pieces.

We advise the use of leveling systems when applying big ceramic formats material. Use the minimum recommended joints so as to ensure a good aesthetic aspect of the ceramic pieces, and respect the rules of application as follows.

NOTE: Regardless of the values presented here, the person applying it should always follow the regulations of the countries where he is doing this application work.

JOINTS DE POSE

L'utilisation de joints de pose est obligatoire afin d'obtenir une pose parfaite des pièces céramiques. Ils remplissent une importante fonction esthétique et technique. Ils facilitent l'alignement des matériaux et absorbent d'éventuelles déformations qui peuvent se produire dans la structure – sols et murs – et empêchent donc la transmission de ces déformations aux pièces céramiques.

Nous recommandons l'utilisation de niveleurs lors de l'application de matériaux de grand format

Utiliser Les joints minimaux recommandés afin de garantir un bon aspect esthétique des pièces céramiques et respecter les normes d'application sont les suivants.

REMARQUE: Indépendamment des valeurs ici présentées, l'applicateur devra toujours suivre les réglementations du pays où il réalise ce travail d'application.

DAS VERFUGEN

Um die keramischen Platten perfekt zu verlegen, sollten Sie die Wand oder den Boden ordnungsgemäß verfugen. Die Fugen haben wichtige ästhetische und technische Funktionen. Sie erleichtern das Aufreihen der Fliesen; sie absorbieren eventuelle Verformungen der Wand oder des Bodens, und vermeiden dadurch die Übertragung dieser Verformungen auf die Fliesen.

Wir empfehlen die Benutzung von selbstnivellierenden Abstandhaltern, wenn es darum geht, Fliesen von grösseren Formaten zu verlegen, wie zum Beispiel

Die empfohlenen Fugenbreiten, welche eine schöne Optik sowie eine regelgerechte Verlegung gewährleisten, sind nachfolgend angegeben.

WICHTIG: Abgesehen von den oben angegebenen Fugenbreiten, muss der Fliesenleger immer den jeweils geltenden landesspezifischen Vorschriften Folge leisten.

APLICAÇÃO _ APPLICATION _ POSE _ ANWENDUNG

Acabamento Finishing Finition Fertigung	Interior Indoor Intérieur Innen	Exterior Outdoor Extérieur Außen
não retificado non rectified non rectifié presskante	3mm	4mm *
retificado rectified rectifié rektifiziert	2mm	3mm *

* para as cores escuras recomenda-se acrescentar 2mm à junta mínima. Consultar a ficha técnica do respetivo produto no site.

* it's recommended to increase in 2mm the minimum joint in the darker colours. For further information please go to our website and read product's technical data sheet.

* pour les couleurs foncées il est recommandé de rajouter 2mm au joint minimum. Consultez la fiche technique du produit respectif sur le site web.

* Bei dunklen Farben wird empfohlen, 2mm zur Mindestfuge noch weiter hinzuzufügen. Konsultieren Sie das technische Datenblatt des Produkts auf der Website.

04

COLA E ARGAMASSAS

As argamassas, argamassas de rejuntamento, cimentos-colas e colas a utilizar deverão ter em conta o suporte e o fim a que se destinam as peças cerâmicas - interior, exterior, parede, pavimento - e a sua tipologia - Grés porcelânico. Deverá seguir as instruções indicadas pelo fabricante sobre a sua utilização.

GLUE AND MORTAR

The mortars, grouting mortars, glue-cements, and glues to be used should take into account both the support and the intended purpose of the ceramic pieces - indoor, outdoor, wall, floor - and their typology - Porcelain stoneware. You should follow the instructions provided by the manufacturer on its use.

COLLE ET MORTIERS

Les mortiers, mortiers de rejointoiement, ciments-colles et colles à utiliser devront tenir compte du support et de la fin à laquelle sont destinées les pièces céramiques - intérieur, extérieur, mur, plancher - ainsi que de leur typologie - Grès cérame.

Vous devrez suivre les instructions indiquées par le fabricant pour son utilisation.

KLEBER UND MÖRTEL

Welchen Mörtel, welchen Zementkleber oder welche andere Verbundmittel Sie am besten verwenden, hängt sowohl vom Untergrund als auch vom Material (Monoporosa, glasierte Fliesen) ab. Es kommt ebenso darauf an, ob die Fliesen im Außen- Feinsteinzeug.

Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes.

05

INSTRUÇÕES DE CORTE

Recomendamos o corte com arrefecimento de água ou utilização de cortador manual com método de marcação e corte durante o processo de instalação. Não usar ferramentas elétricas com corte a seco durante o processo de instalação. Técnicas de instalação impróprias poderão expor o instalador à poeira de sílica de forma prejudicial.

CUTTING INSTRUCTIONS

We recommend wet cutting or the score and snap method during the installation process. Do not dry cut using power tools during the installation process. Improper installation techniques could expose installer to harmful silica dust.

INSTRUCTIONS DE DÉCOUPE

Nous recommandons la découpe avec refroidissement d'eau ou usage d'un découpant manuel avec méthode de marçage et decoupage pendant la pose. Ne pas utiliser d'outils électriques ou de decoupage à sec pendant la pose. Des techniques de pose inadéquates pourront exposer le poseur à des poussières de silice et nuire à la santé.

SCHNEIDEEMPFEHLUNG

Wir empfehlen das Nassschneiden oder die Ritz- und Brechmethode während des Installationsprozesses. Während des Installationsvorgangs nicht mit Elektrowerkzeugen trocken schneiden. Durch unsachgemäße Installationstechniken kann der Installateur schädlichem Quarzstaub ausgesetzt werden.

TECHNICAL INFORMATION _ INFORMATION TECHNIQUE _ TECHNISCHE INFORMATION

INFORMAÇÃO TÉCNICA

06

FUROS

Na furação deverão ser utilizadas brocas cranianas diamantadas com diâmetro adaptável ao furo pretendido.

HOLES

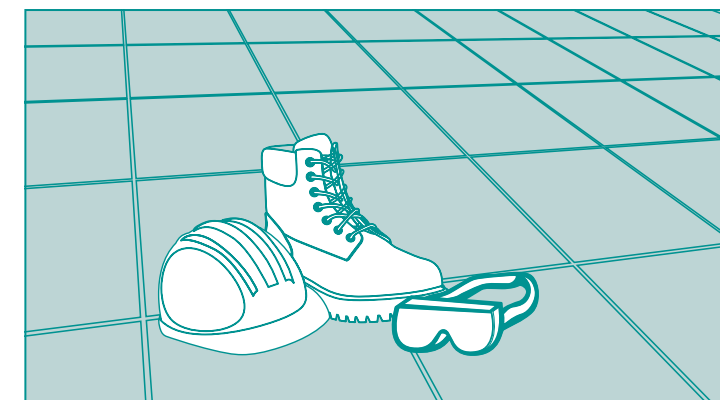

For drilling you should use diamond twist drills with a diameter adaptable to the desired hole.

PERÇAGES

Pour le perçage, utiliser des trépons diamantés avec un diamètre adapté au trou désiré.

LÖCHER

Löcher sollten im gewünschten Durchmesser mittels einer Diamanthammerbohrkrone in die Fliese gebohrt werden.

07

SEGURANÇA NA PREPARAÇÃO E ASSENTAMENTO DO MATERIAL

Aconselha-se a utilização de EPI (equipamento de proteção individual) adequado, nomeadamente, calçado de segurança, luvas de proteção e ainda óculos e proteção auditiva nas operações de corte do material. Devem ser cumpridas as boas práticas a nível do levantamento e transporte manual de cargas.

SAFETY AND PREPARATION FOR LAYING THE MATERIAL

We advise the use of appropriate PPE (personal protective equipment), namely safety footwear, protective gloves and even goggles (safety glasses) and hearing protection in operations of cutting material. Good practices must be followed in terms of lifting and carrying loads.

SÉCURITÉ LORS DE LA PRÉPARATION ET DE LA POSE DU MATÉRIAU

Il est conseillé d'utiliser un EPI (équipement de protection individuelle) approprié, notamment des chaussures de sécurité, des gants de protection, mais aussi des lunettes et une protection auditive lors des opérations de coupe du matériau. Respectez les bonnes pratiques concernant le levage et le transport manuel de charges devront être appliquées.

SICHERHEITSHINWEISE FÜR DAS VERLEGEN VON FLIESEN

Wir empfehlen Ihnen, immer die passende Schutzkleidung zu tragen. Wir ermahnen Sie eindringlich, Schutzschuhe, -handschuhe, -brille sowie Gehörschutz zu benutzen, wenn Sie die Fliesen zuschneiden. Achten Sie bitte auf die richtige Körperhaltung, wenn Sie Lasten heben und tragen.

PROTEÇÃO E LIMPEZA

Todos os resíduos de cola e argamassa de rejuntamento devem ser limpos da superfície das peças, imediatamente após a sua aplicação e de acordo com as instruções do fabricante.

Imediatamente após o assentamento do material cerâmico recomenda-se que as peças cerâmicas sejam devidamente protegidas. Para remoção de sujidade pós-obra, tais como resto de junta, cimentos, etc, recomenda-se a utilização de um ácido desincrustante tamponado para remoção de todos os resíduos.

Na manutenção diária poderão ser utilizados detergentes comuns, respeitando as diluições recomendadas pelo respetivo fabricante.

Relativamente às peças decoradas, dever-se-á evitar a utilização de produtos de limpeza abrasivos, que poderão danificar as peças.

As peças decoradas através da deposição de partículas de titânio - acabamento Gold, Silver e Copper - que lhe conferem um aspeto metálico deverão ser manuseadas com cuidado. A limpeza final e de manutenção deste tipo de produto deverá ser feita com detergentes próprios para metais - abrillantador de aço inox - de forma a criar um efeito antiestático que possa repelir a sujidade e proteger o produto de gorduras e corrosão.

A limpeza regular do produto deverá ser feita com um pano humedecido em água ou limpa-vidros e após secagem deverá ser passado um pano seco.

PROTECTION AND CLEANING

All residues of glue and grout mortar should be cleaned from the surface of the parts immediately after application and in accordance with the manufacturer's instructions.

Immediately after the laying of ceramic material it is recommended that the ceramic parts are / will be duly protected. For dirt removal after the work, such as left-over joints, cements, etc., it is recommended that you use a buffered descaling acid to remove all residues.

In daily maintenance, ordinary detergents may be used, respecting the dilutions recommended by the respective manufacturer.

Regarding decorated pieces, you should avoid the use of abrasive cleansers that may damage the pieces.

Pieces decorated through the depositing of titanium particles - Gold, Silver and Copper - which give them a metallic aspect should be handled with care. The final cleaning and maintenance of this type of product should be made with detergents suitable for metals - stainless steel brightener - so as to create an antistatic effect that can repel dirt and protect the product from fats and corrosion.

Regular cleaning of the product should be done with a damp cloth moisturized with water or window cleaner, and after it gets dry, a dry cloth shall be used.

PROTECTION ET NETTOYAGE

Tous les résidus de colle et de mortier de jointoiment doivent être nettoyés de la surface des pièces immédiatement après l'application et conformément aux instructions du fabricant.

Immédiatement après la pose du matériau céramique, il est recommandé de protéger correctement les pièces céramiques. Pour l'élimination de la saleté résultant des travaux, comme les résidus de joints, ciments, etc., il est recommandé d'utiliser un acide tamponné désincrustant.

L'entretien quotidien pourra être réalisé avec des détergents ordinaires, en respectant les dilutions recommandées par le fabricant respectif.

Pour les pièces décorées, l'utilisation de produits de nettoyage abrasifs devra être évitée car ils pourront endommager les pièces.

Les pièces décorées grâce au dépôt de particules de titane - Gold, Silver et Copper - qui lui confèrent un aspect métallique, devront être manipulées avec soin. Le nettoyage final et d'entretien de ce type de produit devra être réalisé avec des détergents spécifiques pour les métaux - agent de brillantage d'acier inox - afin de créer un effet antistatique qui puisse repousser la saleté et protéger le produit des graisses et de la corrosion.

Le nettoyage régulier du produit doit être effectué avec un chiffon imbibé d'eau ou de nettoyant pour vitres et, après séchage, on doit passer un chiffon sec.

SCHUTZ UND REINIGUNG

Alle Rückstände von Klebstoff und Fugenmörtel sollten von der Oberfläche der Stücke unmittelbar nach dem Auftragen und in Übereinstimmung mit den Anweisungen des Herstellers gereinigt werden.

Bitte vergessen Sie nicht sofort nach Beendigung der Verlegearbeiten, die verflieste Fläche ordnungsgemäß zu schützen. Waschen Sie die verflieste Fläche mit Säure um etwaigen Schmutz (wie z.B.: Schlieren vom Fugenmaterial, Zement, etc.) zu beseitigen.

Für die alltägliche Pflege empfehlen wir die Verwendung von handelsüblichen Reinigungsmitteln. Beachten Sie bitte die Verdünnungsanweisung des Herstellers des Produktes.

Die Pflege und die Reinigung der keramischen Platten ist sehr einfach und sollte mit neutralen Putzmitteln durchgeführt werden.

Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes.

Schleifmittel können zur Beschädigung der Dekore führen und sind daher zu vermeiden.

Gold, Silver und Copper Stücke die durch die Ablagerung von Titanpartikeln - die ihnen einen metallischen Aspekt geben, verziert sind, sollten mit Vorsicht behandelt werden. Die Endreinigung und Wartung dieses Produkttyps sollte mit für Metalle geeigneten Reinigungsmitteln - Aufheller aus rostfreiem Stahl - durchgeführt werden, um eine antistatische Wirkung zu erzielen, die Schmutz abweisen und das Produkt vor Fetten und Korrosion schützen kann.

Die regelmäßige Reinigung des Produkts sollte mit einem mit Wasser oder Glasreiniger angefeuchteten Tuch erfolgen. Nach dem Trocknen sollte man die Flächen mit einem trockenen Tuch abwischen.

09

CICLO DE VIDA

Os impactes ambientais dos nossos produtos distribuem-se ao longo do seu ciclo de vida, nas etapas extração, transporte de matérias-primas, produção, distribuição, uso e fim de vida. A Gresart, S.A. minimiza estes impactes ambientais, através de boas práticas de gestão ambiental.

No uso e fim de vida, apelamos à vossa melhor gestão, privilegiando a reutilização ou a reciclagem numa perspectiva de economia circular.

LIFE CYCLE

The environmental impacts of our products are distributed through their life cycle complying extraction, raw materials transport, production, distribution, use and end of life.

Gresart, S.A. minimize these impacts through good practices of environmental management.

At the end of the product's life cycle, Gresart, S.A. asks for your best management, favoring the reuse or recycling in a perspective of a circular economy.

CYCLE DE VIE

Les impacts environnementaux de nos produits sont distribués tout au long de leur cycle de vie, dans les phases d'extraction, de transport des matières premières, de production, de distribution, d'utilisation et de fin de vie. Chez Gresart, S.A. on minimise ces impacts environnementaux grâce aux bonnes pratiques de gestion de l'environnement.

Dans l'utilisation et la fin de vie, on appelle à votre meilleure gestion en privilégiant la réutilisation ou le recyclage dans une perspective d'économie circulaire.

LEBENSZYKLUS

Die Umweltbelastung unserer Produkte prägt jede Phase ihres Lebenszyklus - die Gewinnung und das Transport der Rohstoffe, die Produktion, die Lieferung, der Gebrauch, die Entsorgung. Gresart, S.A. verniedlicht durch gute Programme des Umweltmanagements die Umweltbelastung.

In der Phase des Gebrauchs und der Entsorgung bitten wir Sie um eine bevorzugte Auswahl von Weiterverwenden oder Recycling.

SUGESTÕES DE APLICAÇÃO

LAYING SUGGESTIONS _ SUGGESTIONS DE POSE _ ANWENDUNGSVORSCHLÄGE

Aplicação em contra fiada não recomendada a mais de 1/3 da peça.

Quando se trata de produtos com relevo nas suas peças (p.ex coleção DECK), a aplicação das peças na mesma direcção podem apresentar um ligeiro desalinhamento intrínseco ao produto. Recomenda-se a utilização de junta aproximadamente, 3 mm.

It's not recommended laying the pieces more than 1/3 of the length of the tile.

When applying pieces in the same direction, the slight deviation of the flat part and/or stripes (eg. DECK collection) is a characteristic intrinsic to the product. We recommend the use of joint of approximately 3mm.

Pose conseillée avec un décalage entre chaque carreau non supérieur à 1/3 de la longueur du carreau même.

Lors de la pose de carreaux structurés dans le même sens (par ex. la collection DECK), un léger décalage de l'alignement de la partie lisse et/ou rayures est une caractéristique intrinsèque du produit. Nous recommandons l'utilisation d'un joint d'environ 3mm.

Bei einer versetzten Verlegung empfehlen wir 1/3 (zweidrittel) Verbandverlegung.

Wenn es sich um Produkte mit Prägung handelt (z.B. DECK Kollektion), kann die Verlegung der Fliesen in die selbe Richtung eine eigene optische Verlagerung präsentieren. Hier wird eine Fuge von etwa 3mm empfohlen.

1 - Aplicabilidade das Condições

1.1. As condições gerais em seguida elencadas e especificadas - de ora em diante denominadas "CONDIÇÕES" -, constituem parte integrante do contrato de compra e venda de mosaicos e outros produtos cerâmicos - de ora em diante designados como o "PRODUTO" ou os "PRODUTOS" - fabricados pela Gresart, S.A., também designado como o "FABRICANTE".

1.2. Salvo casos específicos ou excepcionais, em que a aplicação destas condições seja expressamente alterada através de acordo escrito e assinado pelo FABRICANTE, elas representam as condições exclusivas aplicadas a essa venda. Se uma ou mais partes das presentes CONDIÇÕES ou contratos, individualmente considerados e dos quais elas façam parte, forem alguma forma julgadas nulas, inválidas ou inaplicáveis por razões de força maior, as CONDIÇÕES gerais ou particulares permanecerão válidas no seu conjunto, sendo que as condições inválidas serão substituídas por novas disposições que reproduzirão, tanto quanto possível, a intenção original das partes.

2 - Execução do Contrato de Venda - Entrega dos Produtos

2.1. O contrato é celebrado quando a parte proponente ou o comprador tiver conhecimento da aceitação escrita do mesmo pela contraparte.

2.2. Uma encomenda que não tiver sido confirmada por escrito não pode, em nenhuma circunstância, ser considerada como não sido aceite, excepto se tiver sido executada pelo FABRICANTE através do envio ou da entrega dos PRODUTOS. A entrega parcial dos PRODUTOS encomendados não implica a aceitação da totalidade da encomenda, mas apenas da parte dos PRODUTOS que tenham sido efectivamente entregues.

2.3. Excepto se o contrário for prévia e expressamente acordado por escrito, a entrega dos PRODUTOS será efectuada exclusivamente no território de Portugal Continental e na condição de que seja possível e permitido o acesso ao local da entrega de veículo pesado com semi-reboque de 24 (vinte e quatro) toneladas de peso bruto.

2.4. Excepto se o contrário for expressamente acordado por escrito, a entrega dos PRODUTOS apenas será efectuada em obra se a encomenda a entregar for superior a 100m2 (cem metros quadrados).

2.5. Salvo acordo expresso em contrário, todas as datas que forem indicadas para efeitos de entrega, serão consideradas como datas aproximadas.

3 - Características dos Produtos - Garantia - Reclamações

3.1. Os PRODUTOS fabricados pela Gresart, S.A. são produzidos em conformidade com as normas europeias aplicáveis. O FABRICANTE vende preferencialmente a revendedores profissionais, sendo estes os responsáveis por prestarem informações técnicas correctas e adequadas aos utilizadores finais ou aos retalhistas.

A classificação dos PRODUTOS é indicada pelo FABRICANTE no material publicitário e/ou nas tabelas de preços. Em consequência, o comprador deverá usar os PRODUTOS em conformidade com as especificações do FABRICANTE.

Para facilitar a sugestão de uso e adaptar a especificação standard à produção específica do FABRICANTE, sobre todos os produtos, listas de preços ou catálogos existem símbolos específicos que indicam a utilização aconselhada para cada produto por parte do FABRICANTE.

3.2. As diferenças de tonalidade ou crominância eventualmente constáveis não decorrem de defeitos do PRODUTO, sendo sim uma característica específica do material cerâmico que foi submetido a cozedura a altas temperaturas. A característica especial de "resistência à congelação" apenas se aplica aos produtos que o FABRICANTE tenha especificamente garantido para esse efeito através de uma indicação expressa no seu material publicitário e/ou nas tabelas de preços. No caso de inexistência desta indicação, os produtos serão considerados única e exclusivamente para utilização em interior ou, em qualquer caso, para utilização em locais que não estejam expostos a elementos atmosféricos que alterem as características de resistência ou aparência original do PRODUTO (ex.: precipitação atmosférica, sol, humidade, temperaturas baixas, etc.).

3.3. Os mosaicos com as faces polidas podem alterar o seu aspecto quando utilizados no pavimento de divisões que tenham acesso a partir do exterior, ou divisões onde se preveja intensa circulação pedonal. Os mosaicos polidos podem também ser escorregadios, especialmente quando estiverem molhados ou sob o efeito de humidade. Atento a este motivo o FABRICANTE desaconselha

a utilização destes PRODUTOS em locais públicos. Para os locais de circulação intensa de pessoas, o comprador apenas deverá adquirir PRODUTOS classificados pelo FABRICANTE como "PEI V" ou "Grés Porcelânico Toda-a-Massa", em particular os PRODUTOS que o FABRICANTE recomendar especificamente para utilização em locais públicos.

3.4. As apresentações dos PRODUTOS em folhetos ou em qualquer outro material promocional do FABRICANTE são meramente ilustrativos e não representam necessariamente o resultado final estético decorrente da instalação desse produto específico.

3.5. O FABRICANTE garante a boa qualidade e a ausência de defeitos nos PRODUTOS fornecidos.

A garantia não se aplica aos PRODUTOS classificados pelo FABRICANTE como inferiores à qualidade de 1ª escolha, ou aos stocks de produtos que tenham sido descontinuados, quando forem vendidos a granel ou indicados como lote especial.

3.6. O FABRICANTE não é responsável por quaisquer defeitos e/ou anomalias existentes nos PRODUTOS que não derivem das especificações técnicas dos mesmos, mas antes decorram de uma utilização inadequadas dos PRODUTOS por parte dos adquirentes e/ou de terceiros que actuem em seu nome. Em particular, o FABRICANTE não aceita quaisquer reclamações ou litígios ligados às situações anteriormente descritas.

CONDIÇÕES GERAIS DE VENDA

3.7. As reclamações decorrentes da existência de defeitos patentes ou ocultos terão de ser efectuados por escrito ao FABRICANTE pelo comprador no prazo de 60 dias a contar da data de entrega das mercadorias. A responsabilidade do Fabricante por defeitos inerentes aos produtos entregues ao comprador fica expressamente limitado ao prazo de 2 anos a contar da data de recepção do bem pelo comprador.

3.8. Em geral, a garantia apenas se aplica aos defeitos detectados em produtos que ainda não foram aplicados. Relativamente aos defeitos detectados após os PRODUTOS terem sido aplicados, a garantia apenas pode aplicar-se se o FABRICANTE tiver confirmado que a colocação do PRODUTO foi efectuada em conformidade com as melhores regras da actividade (DIN 18352), bem como de acordo com os procedimentos descritos no manual de aplicação e manutenção do FABRICANTE.

3.9. A garantia concedida pelo FABRICANTE limita-se à substituição dos produtos defeituosos por outros produtos do mesmo tipo sem defeito, acrescida das despesas de transporte. É expressamente excluído o reembolso de quaisquer outros custos e/ou despesas e em particular os custos de demolição e recolocação. Em qualquer caso, a garantia do FABRICANTE não pode ultrapassar em cinco vezes o valor do material reclamado, até um valor máximo de 10.000 Euros.

3.10. O FABRICANTE não é responsável por quaisquer reclamações devidas a uma classificação de materiais cerâmicos efectuada por organismos de certificação e controlo e diferentes dos europeus indicados no artigo 3.1, com base em especificações técnicas que não correspondam às indicadas pelo FABRICANTE. Qualquer eventual análise técnica especializada solicitada pelo comprador será baseada na correspondência dos materiais vendidos com as características técnicas indicadas pelo FABRICANTE, nesse momento em vigor em Portugal.

4 - Preços e Condições de Pagamento

4.1. Os preços de venda dos PRODUTOS são os indicados na tabela de preços do FABRICANTE vigente à data de confirmação da encomenda. Para contratos de venda com entregas separadas, o preço será o constante da tabela de preços em vigor à data de cada uma das entregas, excepto se as partes contraentes dispuserem por escrito em sentido diverso.

Para os PRODUTOS destinados a mercados estrangeiros o preço será calculado, por indicação do FABRICANTE, na moeda estrangeira do país de destino ou em Euros.

4.2. Excepto se o contrário for expressamente acordado, os pagamentos serão efectuados através de transferência bancária, no prazo de 30 dias a contar da data da factura. Todas as despesas bancárias e de transferência correm por conta do comprador. No caso de atraso na realização do pagamento o FABRICANTE, juntamente com quaisquer outros prejuízos, terá direito, sem necessidade de aviso prévio ao comprador, a aplicar uma taxa de juros de mora e punitivos equivalente à taxa EURIBOR a 6 meses acrescida de 5%.

5 - Agentes do Fabricante

5.1. Os agentes do FABRICANTE promovem a venda dos PRODUTOS e não estão autorizados a agir em nome e por conta do FABRICANTE, excepto no caso de obterem autorização específica expressa para o efeito.

5.2. As encomendas recebidas pelos agentes não vinculam o FABRICANTE e deverão, portanto, ser expressamente aceites por escrito pelo próprio FABRICANTE.

6 - Reserva de Propriedade

6.1. É acordado entre as partes que a venda dos PRODUTOS seja efectuada com reserva de propriedade por parte do FABRICANTE até que o pagamento integral do preço acordado esteja integralmente saldado por parte do comprador. No entanto, o risco de perda das mercadorias é transferido para o comprador no momento da entrega dos PRODUTOS.

6.2. No caso de vendas para países estrangeiros, quando as mercadorias são vendidas e entregues a terceiros no âmbito das actividades comerciais normais do Comprador e a propriedade das mercadorias ainda não tiver sido transferida, o direito de reserva de propriedade do FABRICANTE permanece válido perante terceiros.

6.3. No caso de atrasos no pagamento o FABRICANTE tem o direito, sem necessidade de recorrer a qualquer formalidade, incluindo qualquer aviso prévio ao comprador, a recolher todas as mercadorias sujeitas a reserva de propriedade e, se legalmente consagrado, todos os títulos de crédito perante terceiros, ficando expressamente reservado o direito do FABRICANTE recorrer a todos os meios legais ao seu dispor tendo em vista o ressarcimento dos prejuízos que tiver sofrido ou que vier a sofrer em consequência da conduta inadimplente do Comprador.

7 - Caso de Força Maior

7.1. O FABRICANTE não será responsável perante o comprador por qualquer incumprimento do contrato, incluindo a falta de entrega ou a entrega com atraso do PRODUTO, causada por factos que estão fora do seu controlo, como por exemplo, a não entrega ou entrega com atraso de materiais por parte de fornecedores, avarias nas instalações, greves, factos da natureza, interrupções no fornecimento de energia eléctrica, suspensão ou dificuldades de transporte.

8 - Legislação Aplicável - Foro Competente

8.1. Na interpretação, integração ou rectificação das presentes condições vigorarão as disposições constantes do Decreto-Lei Nº 67/2003, de 8 de Abril, que não tenham sido afastadas por acordo das partes.

GENERAL SALES CONDITIONS

1 - Applicability of Conditions

1.1. The general conditions listed and specified below - hereinafter referred to as the "CONDITIONS" - form an integral part of the contract for the purchase and sale of mosaics and other ceramic products - hereinafter referred to as the "PRODUCT" or the "PRODUCTS" - manufactured by Gresart, S.A., also referred to as the "MANUFACTURER".

1.2. Except in specific or exceptional cases, in which the application of these conditions is expressly modified by written agreement and signed by the MANUFACTURER, they represent the exclusive conditions applied to such sale. If one or more parts of these CONDITIONS or contracts, individually considered and of which they form part, are in any way deemed null and void, invalid or unenforceable by reason of force majeure, the general or particular CONDITIONS shall remain valid as a whole and the invalid conditions shall be replaced by new provisions reproducing, as far as possible, the original intention of the parties.

2 - Execution of the Sales Contract - Delivery of Products

2.1. The contract shall be signed when the proposing party or the purchaser becomes aware of its written acceptance by the counterpart.

2.2. An order which has not been confirmed in writing shall under no circumstances be deemed as not having been accepted unless it has been carried out by the MANUFACTURER by sending or delivering the PRODUCTS. The partial delivery of the ordered PRODUCTS does not imply acceptance of the entire order, but only of the part concerning the PRODUCTS that have actually been delivered.

2.3. Unless otherwise expressly agreed in writing and in advance, the delivery of the PRODUCTS shall be made exclusively Ex-works.

2.4. Unless otherwise expressly agreed, all dates indicated for delivery purposes shall be considered as approximate dates.

3 - Product Characteristics - Guarantee - Complaints

3.1. The PRODUCTS manufactured by Gresart, S.A., are produced in accordance with the applicable European standards. The MANUFACTURER preferably sells to professional resellers, who are responsible for providing correct and appropriate technical information to end users or retailers.

The classification of the PRODUCTS is indicated by the MANUFACTURER in advertising material and/or price lists. Consequently, the buyer must use the PRODUCTS in accordance with the MANUFACTURER's specifications.

To facilitate the suggestion of use and adapt the standard specification to the specific production of the MANUFACTURER, all products, price lists or catalogues contain specific symbols indicating the recommended use for each product by the MANUFACTURER.

3.2. Differences in tonality or chrominance, if any, do not result from defects in the PRODUCT, rather being a specific characteristic of the ceramic material that has been subjected to firing at high temperatures. The special characteristic of "freezing resistance" only applies to products which the MANUFACTURER has specifically guaranteed for that purpose by means of express indication in its advertising material and/or price lists. In case of absence of this indication, the products will be solely and exclusively considered for indoor use or, in any case, for use in places that are not exposed to atmospheric elements that alter the resistance characteristics or the original look of the PRODUCT (e.g. atmospheric precipitation, sun, humidity, low temperatures, etc.).

3.3. Mosaics with polished faces may change their appearance when used on the floor of rooms that have access from the outside, or rooms where intense pedestrian traffic is expected. Polished tiles can also be slippery, especially when wet or damp. For this reason, the MANUFACTURER advises against the use of these PRODUCTS in public places. For places where people circulate intensively, the buyer should only purchase PRODUCTS classified by the MANUFACTURER as "PEI V" or "Full Body Porcelain Stoneware", in particular those PRODUCTS that the MANUFACTURER specifically recommends for use in public places.

3.4. The presentations of the PRODUCTS in leaflets or in any other promotional material by the MANUFACTURER are merely illustrative and do not necessarily represent the aesthetic end-result arising from the installation of that specific product.

3.5. The MANUFACTURER guarantees the good quality and the absence of defects in the PRODUCTS supplied.

The guarantee does not apply to PRODUCTS classified by the MANUFACTURER as inferior to the 1st. choice quality, or to the stocks of products that have been discontinued, when they are sold in bulk or indicated as special lot.

3.6. The MANUFACTURER shall not be liable for any defects and/or anomalies existing in the PRODUCTS that do not result from their technical specifications but rather arise from the improper use of the PRODUCTS by the purchasers and/or third parties acting on their behalf. In particular, the MANUFACTURER does not accept any complaints or disputes related to the above described situations.

3.7. Complaints arising from the existence of evident or hidden defects must be made to the MANUFACTURER in writing by the purchaser within 60 days from the date of delivery of the goods. The Manufacturer's liability for defects inherent in the products delivered to the Buyer is expressly limited to 2 years from the date of receipt of the goods by the Buyer.

3.8. In general, the guarantee only applies to defects found in products which have not yet been applied. For defects detected after the PRODUCTS have been applied, the guarantee can only apply if the MANUFACTURER has confirmed that the installation of the PRODUCT has been carried out in accordance with the best rules of the activity (DIN 18352), as well as in accordance with the procedures described in the MANUFACTURER's application and maintenance manual.

3.9. The guarantee granted by the MANUFACTURER is limited to the replacement of the defective products with other products of the same type without defect, plus transport costs. The reimbursement of any other costs and/or expenses, in particular demolition and relocation costs, is expressly excluded. In any case, the MANUFACTURER's guarantee does not exceed five times the value of the material claimed, up to a maximum of 10,000 Euros.

3.10. The MANUFACTURER is not responsible for any claims due to a classification of ceramic materials made by certification and control bodies other than the European ones, indicated in article 3.1, based on technical specifications that do not correspond to those indicated by the MANUFACTURER. Any specialised technical analysis requested by the buyer will be based on the correspondence of the materials sold with the technical characteristics indicated by the MANUFACTURER, at that time in force in Portugal.

4 - Prices and Payment Conditions

4.1. The sale prices of the PRODUCTS are those indicated in the MANUFACTURER's price list in force on the date of confirmation of order. For sales contracts with separate deliveries, the price shall be the one set out in the price list in force on the date of each delivery, unless the contracting parties have stipulated differently.

For PRODUCTS aimed at foreign markets the price will be calculated, by indication of the MANUFACTURER, in the foreign currency of the country of destination or in Euros.

4.2. Unless otherwise expressly agreed, payments shall be made by bank transfer within 30 days from the date of invoice. All bank and transfer charges shall be borne by the purchaser. In the event of delay in making payment, the MANUFACTURER, together with any other losses, shall be entitled, without prior notice to the purchaser, to apply a default and punitive interest rate equivalent to the 6-month EURIBOR tax plus 5%.

5 - Manufacturer's Agents

5.1. The MANUFACTURER's agents promote the sale of the PRODUCTS and are not authorised to act in the name and on behalf of the MANUFACTURER, unless they obtain express specific authorisation to do so.

5.2. Orders received by agents are not binding on the MANUFACTURER and must therefore be expressly accepted in writing by the MANUFACTURER itself.

6 - Ownership Reservation

6.1. It is agreed between the parties that the sale of the PRODUCTS shall be made with ownership reservation by the MANUFACTURER until full payment of the agreed price is entirely made by the purchaser. However, the risk of loss of the goods is transferred to the purchaser upon delivery of the PRODUCTS.

6.2. In case of sales to foreign countries, when the goods are sold and delivered to third parties within the framework of the Buyer's normal business activities and the ownership of the goods has not yet been transferred, the MANUFACTURER's ownership reservation remains valid vis-à-vis third parties.

6.3. In the event of delays in payment the MANUFACTURER has the right, without the need for any formality including any prior notice to the purchaser, to collect all goods subject to ownership reservation and if legally enshrined, all credit titles to third parties, and the MANUFACTURER expressly reserves the right to use all legal means at its disposal to recover damages it has suffered or may suffer as a result of defaulting conduct of the purchaser.

7 - Case of Force Majeure

7.1. The MANUFACTURER shall not be liable to the purchaser for any breach of contract, including the non-delivery or late delivery of the PRODUCT, caused by facts beyond its control, such as the non-delivery or late delivery of materials by suppliers, facilities breakdowns, strikes, facts of nature, interruptions in power supply, suspension or transport difficulties.

8 - Applicable Law - Competent Jurisdiction

8.1. In the interpretation, integration or rectification of these conditions, the provisions contained in Decree-Law No. 67/2003 of 8 April 2003 which have not been removed by agreement of the parties, shall apply.

CONDITIONS GÉNÉRALES DE VENTE

1 - Conditions applicables

1.1. Les conditions générales, précisées et énumérées ci-après, dénommées les « CONDITIONS », font partie intégrante du contrat de vente de carrelages et autres produits céramiques - ci-après dénommés le « PRODUIT » ou les « PRODUITS » - fabriqués par Gresart, S.A., également dénommé le « FABRICANT ».

1.2. Sauf cas particuliers ou exceptionnels, où l'application de ces conditions générales est expressément modifiée par un accord écrit et signé par le FABRICANT, celles-ci représentent les conditions exclusives appliquées à cette vente. Si une ou plusieurs parties de ces CONDITIONS ou contrats, individuellement considérés et dont elles en font partie, sont de quelque manière que ce soit considérées comme nulles, invalides ou inapplicables pour des raisons de force majeure, les CONDITIONS générales ou particulières resteront valables dans leur ensemble, les conditions invalides étant remplacées par de nouvelles dispositions qui reproduiront, autant que possible, l'intention initiale des parties.

2 - Exécution du contrat de vente - Livraison des produits

2.1. Le contrat est conclu lorsque le vendeur ou l'acquéreur prend connaissance de l'acceptation écrite du contrat par l'autre partie.

2.2. Une commande non confirmée par écrit ne pourra en aucun cas être considérée comme non acceptée, sauf lorsqu'elle est exécutée par le FABRICANT via l'envoi ou la livraison des PRODUITS. La livraison partielle des PRODUITS commandés n'implique pas l'acceptation de l'intégralité de la commande, mais uniquement de la partie des PRODUITS effectivement livrée.

2.3. Sauf accord contraire préalable et exprès par écrit, la livraison des PRODUITS sera effectuée exclusivement Ex-works.

2.4. Sauf convention contraire expresse fixée par écrit, toutes les dates indiquées aux fins de la livraison seront considérées comme des dates approximatives.

3 - Caractéristiques des produits - Garantie - Réclamations

3.1. LES PRODUITS fabriqués par Gresart, S.A. sont produits conformément aux normes européennes applicables. Le FABRICANT vend de préférence à des revendeurs professionnels, qui sont responsables de fournir des informations techniques correctes et appropriées aux utilisateurs finaux ou aux détaillants.

Le classement des PRODUITS est indiqué par le FABRICANT dans le matériel publicitaire et / ou dans les listes de prix. En conséquence, l'acquéreur doit utiliser les PRODUITS conformément aux spécifications du FABRICANT.

Afin de faciliter la suggestion d'utilisation et d'adapter la spécification standard à la production spécifique du FABRICANT, en ce qui concerne tous les produits, listes de prix ou catalogues, des symboles spécifiques sont ajoutés, indiquant l'utilisation recommandée de chaque produit par le FABRICANT.

3.2. Les différences de tonalité ou de chrominance qui peuvent être constables ne sont pas dues à des défauts du PRODUIT, mais si à une caractéristique spécifique du matériau céramique après avoir été soumis à une cuisson à haute température. La particularité de « résistance au gel » ne s'applique qu'aux produits spécifiquement garantis par le FABRICANT à cet effet, tel qu'indiqué dans son matériel publicitaire et / ou dans les listes de prix. Cette indication n'étant pas présente, les produits sont uniquement et exclusivement conçus pour être utilisés en intérieur ou, dans tous les cas, dans des lieux non exposés à des éléments atmosphériques qui altèrent les caractéristiques de résistance ou l'aspect d'origine du PRODUIT (par exemple : précipitations atmosphériques, soleil, humidité, basses températures, etc.).

3.3. Les carreaux aux faces polies peuvent changer d'apparence lorsqu'elles sont utilisées sur le sol des pièces avec accès à l'extérieur ou des espaces où une circulation piétonne régulière est prévue. Les carreaux polis peuvent également être glissantes, surtout lorsqu'elles sont mouillées ou sous l'effet de l'humidité. Compte tenu de cette caractéristique, le FABRICANT déconseille d'utiliser ces PRODUITS dans les lieux publics. Pour les espaces avec une circulation intense de personnes, l'acquéreur doit acheter exclusivement les PRODUITS classés par le FABRICANT comme « PEI V » ou le « Grès cérame pleine masse », en particulier les PRODUITS que le FABRICANT recommande spécifiquement pour une utilisation dans les espaces publics.

3.4. La présentation des PRODUITS sur des dépliant ou tout autre matériel promotionnel du FABRICANT est purement illustrative et ne représente pas nécessairement le résultat esthétique final de la pose de ce produit spécifique.

3.5. Le FABRICANT garantit la bonne qualité et l'absence de défauts dans les PRODUITS fournis.

La garantie ne s'applique pas aux PRODUITS classés par le FABRICANT comme inférieurs à la qualité de 1er choix, ni aux stocks de produits dont la production est abandonnée, lorsqu'ils sont vendus en vrac ou indiqués comme lot spécial.

3.6. Le FABRICANT n'est pas responsable des défauts et / ou anomalies existant dans les PRODUITS pouvant découler du non-respect des spécifications techniques de ceux-ci, résultant d'une mauvaise utilisation des PRODUITS par les acheteurs et / ou des tiers agissant en leur nom. En particulier, le FABRICANT n'accepte aucune réclamation ou contestation liée aux situations décrites ci-dessus.

3.7. Les réclamations résultant de l'existence de défauts évidents ou cachés doivent être adressées par écrit au FABRICANT par l'acquéreur dans un délai de 60 jours à compter de la date de livraison des marchandises. La responsabilité du fabricant à l'égard des défauts inhérents aux produits livrés à l'acquéreur est expressément limitée à une période de 2 ans à compter de la date de réception des marchandises par l'acquéreur.

3.8. En général, la garantie ne s'applique qu'aux défauts constatés dans les produits qui n'ont pas encore été appliqués. En ce qui concerne les défauts détectés après la pose des PRODUITS, la garantie ne peut s'appliquer que lorsque le FABRICANT confirme que celle-ci a été réalisée conformément aux meilleures règles du métier (DIN 18352) et aux procédures décrites dans le manuel de pose et d'entretien du FABRICANT.

3.9. La garantie accordée par le FABRICANT est limitée au remplacement des produits défectueux par d'autres produits du même type sans défaut, majoré des frais de port. Le remboursement de tous autres frais et / ou dépenses et notamment des frais de démolition et de remplacement est expressément exclu. Dans tous les cas, la garantie du FABRICANT ne peut excéder cinq fois la valeur du matériau réclamé, jusqu'à un montant de 10 000 euros maximum.

3.10. Le FABRICANT ne peut pas être tenu responsable des réclamations dues à tout classement des matériaux céramiques effectué par des organismes de certification et de contrôle différents des organismes européens indiqués à l'article 3.1, sur la base des spécifications techniques qui ne correspondent pas à celles indiquées par le FABRICANT. Toute analyse technique spécialisée éventuelle, demandée par l'acquéreur, sera basée sur la correspondance des matériaux vendus avec les caractéristiques techniques indiquées par le FABRICANT, à présent applicables au Portugal.

4 - Prix et modalités de paiement

4.1. Les prix de vente des PRODUITS sont indiqués dans la liste de prix du FABRICANT, en vigueur à la date de confirmation de la commande. Pour les contrats de vente avec des livraisons séparées, le prix sera celui indiqué dans la liste de prix en vigueur à la date de chaque livraison, sauf si les parties contractantes en ont convenu autrement par écrit.

Pour les PRODUITS destinés aux marchés étrangers, le prix sera calculé, comme indiqué par le FABRICANT, dans la devise étrangère du pays de destination ou en Euros.

4.2. Sauf convention contraire expresse, les paiements seront effectués par virement bancaire, dans les 30 jours suivant la date de facturation. Tous les frais bancaires et de transfert sont à la charge de l'acquéreur. En cas de retard de paiement, le FABRICANT est en droit d'appliquer, sans mise en demeure adressée à l'acquéreur, et outre toutes autres pertes, un taux d'intérêt de retard et punitif équivalent au taux EURIBOR 6 mois majoré de 5%.

5 - Agents du fabricant

5.1. Les agents du FABRICANT doivent promouvoir la vente des PRODUITS, mais ne sont pas autorisés à agir pour le compte du FABRICANT, sauf s'ils obtiennent une autorisation expresse spécifique à cet effet.

5.2. Les commandes reçues par les agents n'engagent pas le FABRICANT. Elles doivent donc être expressément acceptées par écrit par le FABRICANT lui-même.

6 - Réserve de propriété

6.1. Les parties conviennent que la vente des PRODUITS est effectuée sous réserve de propriété par le FABRICANT jusqu'au paiement intégral du prix convenu, par l'acquéreur. Cependant, le risque de perte de la marchandise est transféré à l'acquéreur lors de la livraison des PRODUITS.

6.2. Dans le cas de ventes à l'étranger, lorsque les marchandises sont vendues et livrées à des tiers dans le cadre des activités commerciales normales de l'acquéreur et que le transfert de propriété des marchandises n'a pas encore eu lieu, le droit de réserve de propriété du FABRICANT reste valable à l'égard des tiers.

6.3. En cas de retard de paiement, le FABRICANT a le droit, sans avoir recours à aucune formalité, y compris à toute mise en demeure adressée à l'acquéreur, de retirer toutes les marchandises sous réserve de propriété et, lorsque légalement prévu, tous titres de crédit auprès de tiers. Le FABRICANT est en droit, qui lui est expressément réservé, de recourir à tous les moyens juridiques à sa disposition en vue de compenser les pertes qu'il a subies ou subira du fait du comportement fautif de l'acquéreur.

7 - Force majeure

7.1. Le FABRICANT ne sera pas responsable envers l'acquéreur de toute rupture de contrat, y compris la non-livraison ou la livraison en retard du PRODUIT, causée par des faits indépendants de sa volonté, tels que la non-livraison ou la livraison retardée des matériaux, de la part des fournisseurs, dysfonctionnements des locaux, grèves, faits de la nature, interruptions de l'approvisionnement en électricité, suspension ou difficultés de transport.

8 - Loi applicable - Jurisdiction compétente

8.1. Les dispositions fixées au décret-loi n° 67/2003, du 8 avril 2003, qui n'aient pas été rejetées par accord entre les parties, s'appliquent dans l'interprétation, l'intégration ou la rectification des présentes conditions.

ALLGEMEINE VERKAUFSBEDINGUNGEN

1 - Anwendbarkeit der Bedingungen

1.1. Die nachstehend aufgeführten und definierten allgemeinen Bedingungen - im Folgenden als "BEDINGUNGEN" bezeichnet - sind integraler Bestandteil des Vertrags für den Kauf und Verkauf von Mosaikfliesen und anderen keramischen Produkten - im Folgenden als "PRODUKT" oder "PRODUKTE" bezeichnet - hergestellt von Gresart, S.A., auch als "HERSTELLER" bezeichnet.

1.2. Außer in besonderen oder außergewöhnlichen Fällen, in denen die Anwendung dieser Bedingungen ausdrücklich durch eine schriftliche Vereinbarung geändert und vom HERSTELLER unterzeichnet wurden, stellen sie die ausschließlichen Bedingungen dar, die in Verbindung mit einem solchen Verkauf geltend gemacht werden können. Wenn ein oder mehrere Teile dieser BEDINGUNGEN oder Verträge einzeln betrachtet werden und Bestandteil dieser sind, aufgrund höherer Gewalt in irgendeiner Weise als nichtig, ungültig oder nicht durchsetzbar gelten, bleiben die allgemeinen oder besonderen BEDINGUNGEN als Ganzes gültig. Die ungültigen Bedingungen werden durch neue Bestimmungen ersetzt, die so weit wie möglich die ursprüngliche Absicht der Parteien wiedergeben.

2 - Ausführung des Kaufvertrags - Lieferung von Produkten

2.1. Der Vertrag ist abgeschlossen, wenn der vorschlagende Partei oder dem Käufer die schriftliche Annahme durch die Gegenpartei bekannt ist.

2.2. Eine Bestellung, die nicht schriftlich bestätigt wurde, kann unter keinen Umständen als nicht angenommen betrachtet werden, es sei denn, sie wurde vom HERSTELLER durch Versand oder Lieferung der PRODUKTE ausgeführt. Die Teillieferung der bestellten PRODUKTE bedeutet nicht die Annahme der gesamten Bestellung, sondern nur des Teils der PRODUKTE, der tatsächlich geliefert worden ist.

2.3. Sofern nicht ausdrücklich schriftlich und im Voraus anders vereinbart, erfolgt die Lieferung der PRODUKTE ausschließlich ab Werk.

2.4. Sofern nicht ausdrücklich anders vereinbart, gelten alle für Lieferzwecke angegebenen Daten als ungefähre Daten.

3 - Eigenschaften der Produkte - Garantie - Reklamationen

3.1. Die von Gresart, S.A. hergestellten PRODUKTE werden in Übereinstimmung mit den geltenden europäischen Normen hergestellt. Der HERSTELLER verkauft vorzugsweise an professionelle Wiederverkäufer. Diese sind für die Bereitstellung korrekter und angemessener technischer Informationen für Endbenutzer oder Einzelhändler verantwortlich.

Die Klassifizierung der PRODUKTE wird vom HERSTELLER auf Werbematerial und/oder Preislisten angegeben. Folglich muss der Käufer die PRODUKTE in Übereinstimmung mit den Spezifikationen des HERSTELLERS verwenden.

Um den Verwendungsvorschlag zu erleichtern und die Standardspezifikation an die spezifische Produktion des HERSTELLERS anzupassen, sind auf allen Produkten, Preislisten oder Katalogen spezifische Symbole angebracht, die die vom HERSTELLER empfohlene Verwendung für jedes Produkt angeben.

3.2. Die Unterschiede in Tonalität oder Farbe, wenn überhaupt, sind nicht auf Fehler im PRODUKT zurückzuführen, sondern eine spezifische Eigenschaft des keramischen Materials, das bei hohen Temperaturen gebrannt wurde. Die besondere Eigenschaft der "Frostbeständigkeit" gilt nur für Produkte, für die der HERSTELLER ausdrücklich in seinen Werbematerialien und/oder in den Preislisten diese Garantie gibt. Fehlt diese Angabe, werden die Produkte nur und ausschließlich für die Verwendung in Innenräumen oder jedenfalls für die Verwendung an Orten betrachtet, die nicht atmosphärischen Elementen ausgesetzt sind, die die Haltbarkeitseigenschaften oder das ursprüngliche Aussehen des PRODUKTES verändern (z. B. atmosphärischer Niederschlag, Sonne, Feuchtigkeit, niedrige Temperaturen, etc.).

3.3. Die Fliesen mit den polierten Oberflächen können ihr Aussehen verändern, wenn sie als Bodenbelag in Räumen verwendet werden, die von außen zugänglich sind, oder in Räumen, in denen intensiver Fußgängerverkehr erwartet wird. Polierte Fliesen können auch rutschig sein, insbesondere wenn sie nass oder feucht sind. Aus diesem Grund rät der HERSTELLER davon ab, diese PRODUKTE an öffentlichen Orten zu verwenden. Für Orte, an denen intensiver Fußgängerverkehr zu erwarten ist, sollte der Käufer nur PRODUKTE kaufen, die vom HERSTELLER als "PEI V" oder "Vollmassiges Feinsteinzeug" klassifiziert werden, insbesondere solche PRODUKTE, die der HERSTELLER speziell für die Verwendung an öffentlichen Orten empfiehlt.

3.4. Die Präsentationen der PRODUKTE in Broschüren oder in anderem Werbematerial des HERSTELLERS dienen lediglich der Veranschaulichung und stellen nicht unbedingt das ästhetische Endergebnis dar, das sich aus der Installation dieses spezifischen Produkts ergibt.

3.5. Der HERSTELLER garantiert die gute Qualität und die Mängelfreiheit der gelieferten PRODUKTE.

Die Garantie gilt nicht für PRODUKTE, die vom HERSTELLER als minderwertig gegenüber der Qualität der 1. Wahl eingestuft werden, oder für die Lagerbestände von Produkten, die eingestellt wurden, wenn sie lose verkauft oder als Sonderposten angegeben werden.

3.6. Der HERSTELLER haftet nicht für Mängel und/oder Anomalien der PRODUKTE, die sich nicht aus den technischen Spezifikationen derselben ableiten, sondern aus der unsachgemäßen Verwendung der PRODUKTE durch die Käufer und/oder in ihrem Namen handelnde Dritte entstehen. Insbesondere akzeptiert der HERSTELLER keine Beschwerden oder Streitigkeiten im Zusammenhang mit den oben beschriebenen Situationen.

3.7. Ansprüche, die sich aus dem Vorhandensein von patentierten oder versteckten Mängeln ergeben, müssen vom Käufer innerhalb von 60 Tagen nach Lieferung der Ware schriftlich dem HERSTELLER bekannt gemacht werden. Die Haftung des Herstellers für Mängel an den an den Käufer gelieferten Produkten ist ausdrücklich auf einen Zeitraum von 2 Jahren ab dem Datum des Erhalts der Ware durch den Käufer beschränkt.

3.8. Im Allgemeinen gilt die Garantie nur für Mängel an Produkten, die noch nicht angewendet wurden. Für Mängel, die nach der Anwendung der PRODUKTE festgestellt werden, kann die Garantie nur dann gelten, wenn der HERSTELLER bestätigt hat, dass die Installation des PRODUKTES nach den besten Praktiken (DIN 18352) sowie in Übereinstimmung mit den im Anwendungs- und Wartungshandbuch des HERSTELLERS beschriebenen Verfahren durchgeführt wurde.

3.9. Die vom HERSTELLER gewährte Garantie beschränkt sich auf den Ersatz defekter Produkte durch andere Produkte desselben Typs ohne Mängel, zuzüglich Transportkosten. Die Erstattung sonstiger Kosten und/oder Aufwendungen, insbesondere Abbruch- und Umzugskosten, ist ausdrücklich ausgeschlossen. In jedem Fall darf die Garantie des HERSTELLERS den fünffachen Wert des beanspruchten Materials bis zu einem Höchstbetrag von 10.000 Euro nicht überschreiten.

3.10. Der HERSTELLER ist nicht verantwortlich für Ansprüche aufgrund einer Klassifizierung von keramischen Materialien, die von anderen als den in Artikel 3.1 angegebenen europäischen Zertifizierungs- und Kontrollorganen auf der Grundlage technischer Spezifikationen vorgenommen wurden, die nicht den vom HERSTELLER angegebenen entsprechen. Jede spezialisierte technische Analyse, die vom Käufer angefordert wird, basiert auf der Übereinstimmung der verkauften Materialien mit den vom HERSTELLER angegebenen technischen Eigenschaften, die zu diesem Zeitpunkt in Portugal gelten.

4 - Preise und Zahlungsbedingungen

4.1. Die Verkaufspreise der PRODUKTE sind diejenigen, die in der am Datum der Auftragsbestätigung gültigen Preisliste des HERSTELLERS angegeben sind. Bei Kaufverträgen mit getrennten Lieferungen gilt der Preis, der in der am Tag der jeweiligen Lieferung gültigen Preisliste angegeben ist, sofern die Vertragsparteien nichts anderes schriftlich vereinbart haben.

Für PRODUKTE, die für ausländische Märkte bestimmt sind, wird der Preis nach Angaben des HERSTELLERS in der Fremdwährung des Bestimmungslandes oder in Euro berechnet.

4.2. Sofern nicht ausdrücklich anders vereinbart, sind Zahlungen per Banküberweisung innerhalb von 30 Tagen ab Rechnungsdatum zu leisten. Alle Bank- und Überweisungsgebühren gehen zu Lasten des Käufers. Bei Zahlungsverzug ist der HERSTELLER berechtigt, zusammen mit allen anderen Verlusten und ohne vorherige Benachrichtigung des Käufers, einen Verzugs- und Strafzinssatz in Höhe des EURIBOR sechs Monate plus 5% anzuwenden.

5 - Vertreter des Herstellers

5.1. Die Vertreter des HERSTELLERS werben für den Verkauf der PRODUKTE und sind nicht befugt, im Namen und im Auftrag des HERSTELLERS zu handeln, es sei denn, sie erhalten dafür eine ausdrückliche Sondergenehmigung.

5.2. Aufträge, die von Vertretern entgegengenommen werden, sind für den HERSTELLER nicht bindend und müssen daher vom HERSTELLER selbst ausdrücklich und schriftlich angenommen werden.

6 - Eigentumsvorbehalt

6.1. Es wird zwischen den Parteien vereinbart, dass der Verkauf der PRODUKTE unter Eigentumsvorbehalt seitens des HERSTELLERS erfolgt, bis der Käufer den vereinbarten Preis vollständig bezahlt hat. Das Verlustrisiko der Waren geht jedoch mit der Lieferung der PRODUKTE auf den Käufer über.

6.2. Im Falle von Verkäufen ins Ausland bleibt der Eigentumsvorbehalt des HERSTELLERS gegenüber dem Dritten bestehen, wenn die Waren im Rahmen der normalen Geschäftstätigkeit des Käufers an einen Dritten verkauft und geliefert werden und das Eigentumsrecht an den Waren noch nicht übertragen wurde.

6.3. Bei Zahlungsverzug hat der HERSTELLER das Recht, ohne jegliche Formalität, einschließlich irgendetwelcher vorherigen Benachrichtigung des Käufers, alle unter Eigentumsvorbehalt stehenden Waren und, falls gesetzlich erlaubt, alle Kreditittel vor Dritten einzuziehen, wobei dem HERSTELLER ausdrücklich das Recht vorbehalten bleibt, alle ihm zur Verfügung stehenden rechtlichen Mittel einzusetzen, um den Schaden, den er aufgrund des säumigen Verhaltens des Käufers erlitten hat oder erleiden wird, wieder gutzumachen.

7 - Fall von höherer Gewalt

7.1. Der HERSTELLER haftet dem Käufer gegenüber nicht für Vertragsverletzungen, einschließlich der Nichtlieferung oder verspäteten Lieferung des PRODUKTES, die durch Tatsachen verursacht werden, die sich seiner Kontrolle entziehen, wie z.B. Nichtlieferung oder verspätete Lieferung von Materialien durch Lieferanten, Betriebsstörungen, Streiks, Naturkatastrophen, Unterbrechungen der Stromversorgung, Aussetzung oder Transportschwierigkeiten.

8 - Anwendbares Recht - Zuständiges Gericht

8.1. Bei der Auslegung, Umsetzung oder Berichtigung dieser Bedingungen gelten die im Gesetzesdekret Nr. 67/2003 vom 8. April 2003 enthaltenen Bestimmungen, wenn sie nicht durch Vereinbarung der Parteien aufgehoben wurden.

NOTAS IMPORTANTES

IMPORTANT INFORMATION _ NOTES IMPORTANTES _ WICHTIGE HINWEISE

Todas as imagens apresentadas neste catálogo são meramente ilustrativas, carecendo sempre a confirmação "in loco" das diferenças de tonalidades dos produtos e ambientes.

A Gresart, SA, reserva-se o direito de alterar e/ou anular, total ou parcialmente, qualquer um dos formatos, referências e especificações técnicas apresentados neste catálogo.

As especificações técnicas são válidas unicamente para os produtos de 1ª escolha.

As dimensões apresentadas neste catálogo, correspondem a dimensões nominais (aproximadas), pelo que deve confirmar as dimensões exactas na tabela de calibres dos diferentes formatos.

Os pesos apresentados nas tabelas de embalagem e paletização são meramente indicativos.

All images shown in this catalog are for illustrative purposes only.

Gresart, SA reserves the right to change and / or cancel, in whole or in part, any of the formats, references and technical specifications presented in this catalog.

The technical specifications are valid only for 1st choice products.

The dimensions shown in this catalog correspond to nominal (approx.) dimensions, so please confirm the exact dimensions in the caliber table of the different formats.

The weights shown in the packing list are indicative only.

Toutes les images figurant dans ce catalogue ne sont qu'illustratives, obligeant toujours à la confirmation "in loco" des différences de tonalité au niveau des carreaux bien comme au niveau des ambiances.

Gresart, SA, se réserve le droit de modifier et/ou supprimer, totalement ou partiellement, quelconque format, référence et spécification technique présentés dans ce catalogue.

Les spécifications techniques ne sont valables que pour les produits de 1er choix.

Les dimensions indiquées dans ce catalogue correspondent aux dimensions nominales (approximatives), c'est pourquoi il faudra confirmer les dimensions exactes dans le tableau des calibres pour les différents formats.

Les poids indiqués dans la liste de colisage bien comme la palettisation sont à titre indicatif.

Alle bilder in diesem katalog sind nur illustrativ, deshalb sollte jeweils eine bestätigung der verschieden tonalitäten der produkte und umgebung vor ort erfolgen.

Gresart, SA, behält sich das recht auf jegliche formate, referenzen oder technische spezifikationen aus diesem katalog ganz- oder teilweise zu ändern und/oder zu widerrufen.

Die technischen spezifikationen gelten nur für 1. wahl produkte.

Die größenangaben in diesem katalog entsprechen der (ungefähren) nominalgrößen. Aus diesem grund, müssen die exakten größen in der tabelle mit den kalibern des jeweiligen formats bestätigt werden.

Die dargestellten gewichte in der tabelle der verpackung und palettisierung sind nur richtungsweisend.
